» Trends gestalten Wohnräume «

» Trends define the home «

» Les tendances font les locaux d'habitation «

» Trends definiëren woonruimtes «

»Trends verändern die Welt. Sie entstehen durch den stetigen gesellschaftlichen und technologischen Wandel. Menschen nutzen Trends um sich auszudrücken: ihre Persönlichkeit, Einstellungen, Träume und Emotionen. Das eigene Zuhause ist dabei der wichtigste Ort, an dem das persönliche Lebensgefühl zum Ausdruck kommt. Mit Mustern, Formen, Farben und Materialien wird der eigene Wohnraum kreiert.

Die Architektur hat großen Einfluss auf die Entstehung von Wohntrends. Sie erschafft Räume, in denen sich Zeitgeist und Ideen zu Neuem vereinen. Möbel geben diesen Räumen ihre Persönlichkeit. Das Design der Möbel inszeniert Lebenswelten, in denen sich sowohl die Architektur des Ganzen als auch die Individualität des Menschen im Detail spiegeln.

Ein Möbelgriff spielt als Gestaltungselement in Räumen eine wichtige Rolle. Mit wenig Aufwand lässt sich mit einem Griff ein Trend auf jedes Möbel übertragen und eine starke Wirkung erzielen. Dazu muss ein Griff einen Trend zum fühlbaren Erlebnis machen. Design, Material und Haptik müssen unverwechselbar sein. Der Griff ist das, was man zuerst berührt, der erste Kontakt mit dem Möbel. Als Designer hofft man immer, mit seinem Design mehr als einen Trend zu schaffen – ein Produkt, das sich zum Design-Klassiker entwickelt.«

»Trends reshape the world. They are born out of the constant changes in society and technology. People use trends to express themselves: their personality, attitudes, dreams and emotions. This is where the home they live in is the most important place that reflects their approach to life. Their living space is created by patterns, shapes, colours and materials.

Architecture has a huge influence on the emergence of trends in home furnishing. It brings spaces into being that unite the spirit of the time with ideas to create something new. Furniture gives these spaces their personality. The design of furniture choreographs home environments that not only provide a detailed reflection of the architecture of the whole but also of personal individuality.

As a design element, a furniture handle plays an important part in a room. With little effort, a handle can be used to take a trend to any piece of furniture and provide a powerful impact. To do this, a handle must make a trend a tangible experience. Design, material and feel must be unmistakable. The handle is the first part you touch, the first contact with furniture. As a designer, you always hope your design will create more than a trend – and be a product that turns into a design classic.«

Stephen Williams prägte maßgeblich den Begriff „Corporate Architecture“ mit. Neben der Architektur als Kerngeschäft konzipiert und gestaltet er bei seinen Projekten auch meist das komplette Interior Design. In seinem Hamburger Büro arbeiten vierzehn Mitarbeiter aus den Bereichen Architektur, Produktdesign, Grafik, und Projektmanagement.

Stephen Williams played a key part in coining the term "Corporate Architecture". In addition to architecture as his core activity, he also provides the interior design in most of his projects. His Hamburg-based company employs fourteen members of staff from the fields of architecture, product design, graphics and project management.

Stephen Williams a eu une influence déterminante sur le concept de « Corporate Architecture ». Outre l'architecture en tant qu'activité principale, il conçoit et réalise aussi, la plupart du temps, l'ensemble du design intérieur de ses projets. Quatorze collaborateurs issus des domaines de l'architecture, du design de produits, du graphisme et de la gestion de projets, travaillent dans son bureau de Hambourg.

Stephen Williams vormde het begrip 'Corporate Architecture'. Zijn kernbereik is de architectuur maar hij concipieert en ontwerpt bij zijn projecten meestal ook het volledige Interior Design. In zijn bureau in Hamburg werken veertien medewerkers uit de bereiken architectuur, productdesign, grafische kunst en projectmanagement.

Stephen Williams

« Les tendances changent le monde. Elles sont le fruit de la constante mutation sociale et technologique. Les hommes se servent des tendances pour s'exprimer : leur personnalité, leurs conceptions des choses, leurs rêves et leurs émotions. Le chez-soi est le lieu principal d'expression de l'attitude personnelle par rapport à la vie. Avec des motifs, des formes, des couleurs et des matériaux, on crée son propre espace de vie.

L'architecture a une grande influence sur la formation des tendances du logement. Elle crée des espaces dans lesquels l'esprit de l'époque et les idées s'unissent pour faire du neuf. Les meubles donnent leur personnalité à ces locaux. Le design des meubles met en scène des univers de vie dans lesquels tant l'architecture du tout que l'individualité de l'être humain se reflètent dans le détail.

Une poignée de meuble joue, en tant qu'un élément d'aménagement, un rôle important dans les pièces. À peu de frais, on peut, avec une poignée, appliquer une tendance à chaque meuble et obtenir un effet majeur. Pour ce faire, une poignée doit transformer une tendance en expérience palpable. Le design, le matériau et le toucher doivent être uniques. La poignée, c'est ce qu'on touche en premier, le premier contact avec le meuble. En tant que designer, on espère toujours, avec son design, créer plus qu'une tendance – un produit qui évoluera pour devenir un classique du design. »

»Trends veranderen de wereld. Ze ontstaan door de permanente maatschappelijke en technologische veranderingen. Mensen gebruiken trends om zich uit te drukken: hun persoonlijkheid, mentaliteit, dromen en emoties. Het eigen huis is daarvoor de belangrijkste plaats waar het persoonlijke levensgevoel tot uiting komt. Met patronen, vormen, kleuren en materiaal wordt de eigen woonruimte gecreëerd.

De architectuur heeft grote invloed op het ontstaan van woon-trends. Ze creëert ruimtes waarin tijdgeest en ideeën zich verenigen en tot iets nieuws worden. Meubels verlenen deze ruimtes hun persoonlijkheid. Het design van de meubels ensceeneert leefwerelden waarin zowel de architectuur van het geheel als ook de individualiteit van de mens in detail weerspiegeld worden.

Een meubelgreep speelt een belangrijke rol als designelement in ruimtes. Met weinig moeite kan m.b.v. een greep een trend op elk meubel worden overgebracht en een sterk effect worden bereikt. Daarvoor moet een greep van een trend een voelbare ervaring maken. Design, materiaal en gevoel moeten onmiskenbaar zijn. De greep is wat men als eerste aanraakt, het eerste contact met het meubel. Als designer hoopt men steeds met zijn design meer dan een trend te creëren – een product dat een klassieker in de designwereld wordt.«

TRENDFORUM

Dem Trend auf der Spur. Intensive Markt- und Zukunftsforschung sowie die Beobachtung und Analyse relevanter Strömungen und Konsumentenwünsche sind zentrale Themen des Innovationsmanagements von Hettich. Das Hettich Trendforum setzt bei der Entwicklung, Auswahl und Präsentation von ProDecor die neuesten Ergebnisse seiner Forschungen um und definiert aktuell vier Trendwelten: NEW MODERN, DELUXE, ORGANIC und FOLK.

Die ProDecor Griffkollektion ist konsequent marktorientiert und macht die Identifikation des Möbelkäufers mit seinem eigenen Stil ebenso leicht, wie die trendorientierte Individualisierung von Möbeln. Entdecken Sie die Trendwelten von ProDecor – und die vielen neuen Ideen für Ihre Küchen und Möbel.

Spotting the trend. Intensive research into markets and tomorrow's world as well as watching and analysing relevant preferences and consumer wishes are central aspects of Hettich's innovation management activities. Implementing the latest results of its research in developing, selecting and presenting products for ProDecor, the Hettich Trend Forum currently defines four trend styles: NEW MODERN, DELUXE, ORGANIC and FOLK. The ProDecor handle range rigidly focuses on market preferences and makes it just as easy for furniture buyers to identify with their own particular style as it does to individualise furniture in line with the latest trends. Discover the trend styles from ProDecor – and the many new ideas for your kitchens and furniture.

En quête de la tendance. Une recherche intensive sur le marché et l'avenir ainsi que l'observation et l'analyse des courants et désirs pertinents des consommateurs, sont des thèmes centraux de la gestion de l'innovation de Hettich. Pour le développement, la sélection et la présentation de ProDecor, le Forum des tendances Hettich met en œuvre les tout derniers résultats de ses recherches et définit quatre univers de tendances actualisés : NEW MODERN, DELUXE, ORGANIC et FOLK.

Chaque collection de poignées est systématiquement orientée en fonction du marché et rend l'identification de l'acheteur de meubles avec son propre style tout aussi aisée que l'individualisation tendance de meubles. Découvrez les univers de tendances de ProDecor – et les nombreuses nouvelles idées pour vos cuisines et meubles.

De trend op het spoor. Intensief markt- en toekomstonderzoek evenals het observeren en analyseren van relevante stromingen en consumentenwensen zijn de centrale thema's van het innovatiemanagement van Hettich. Het Hettich Trendforum gebruikt de actuele resultaten van dit onderzoek bij de ontwikkeling, de selectie en de presentatie van ProDecor en definieert momenteel vier trendrichtingen: NEW MODERN, DELUXE, ORGANIC en FOLK. De ProDecor greepcollectie is consequent marktgeoriënteerd en maakt het de meubelkoper even makkelijk zich met zijn eigen stijl te identificeren als meubels trendy te individualiseren. Ontdek de trendrichtingen van ProDecor – en de vele nieuwe ideeën voor uw keukens en meubels.

NEW MODERN

Technik, Transparenz und sachliche Strukturen bestimmen das moderne Leben und Wohnen. Futuristisches Design und eine klare, reduzierte Formgebung machen die Griffe NEW MODERN unverwechselbar. Die Form folgt dabei den technischen Möglichkeiten ihrer Herstellung und setzt reizvolle optische Akzente.

Technology, transparency and down-to-earth structures define modern life and the modern home. Futuristic design and clear, reduced shape make NEW MODERN handles truly unmistakable. Their design results from the technical means of producing them and creates exciting, visual statements.

Technique, transparence et structures neutres sont déterminantes dans la vie et le logement modernes. Design futuriste et formes réduites très claires rendent inimitables les poignées de la tendance « NEW MODERN ». La forme épouse les possibilités techniques de sa fabrication et crée des accents optiques charmants.

Techniek, transparentie en heldere structuren bepalen het moderne leven en wonen. Futuristisch design en een heldere, minimalistische vormgeving maken de grepen NEW MODERN onmiskenbaar. De vorm volgt de technische mogelijkheden van de productie en plaatst fraaie optische accenten.

DELUXE

Wohlfühl braucht etwas Luxus. Ob hochwertige Oberflächen, prachtvolle Muster oder majestätische Farben – DELUXE verbindet die Elemente vieler Kulturen und schafft eine faszinierende Atmosphäre prunkvoller Ausdruckskraft. Glänzende Metalle, Kombinationen mit Schwarz, Weiß oder Gold sowie geradlinige oder auch schwungvolle Formen bestimmen das edle Design der Griffe in diesem Trendbereich.

Feeling good takes a little luxury. Whether high-quality surfaces, magnificent patterns or majestic colours – DELUXE combines elements of many cultures and creates a fascinating atmosphere that speaks splendour. Shining metals, combinations with black, white or gold as well as linear or dynamic shapes define the exquisite design of handles from this trend segment.

Le bien-être demande un certain luxe. Qu'il s'agisse de surfaces de qualité supérieure, de motifs somptueux ou de couleurs majestueuses, DELUXE relie les éléments de nombreuses cultures et crée une atmosphère fascinante d'expressivité fastueuse. Métaux brillants, combinaisons avec du noir, du blanc ou du doré ainsi que formes rectilignes mais aussi pleines d'élan, marquent de leur empreinte le design raffiné des poignées de cette gamme de tendances.

Welbehagen vergt een beetje luxe. Om het even of het gaat om hoogwaardige oppervlakken, prachtige patronen of majesteitlijke kleuren – DELUXE verbindt elementen van vele culturen en creëert een fascinerende atmosfeer met een luisterrijke expressieve kracht. Schitterende metalen in verbinding met zwart, wit of goud en rechte of ook zwierige vormen domineren het edele design van de grepen in dit trendbereik.

ORGANIC

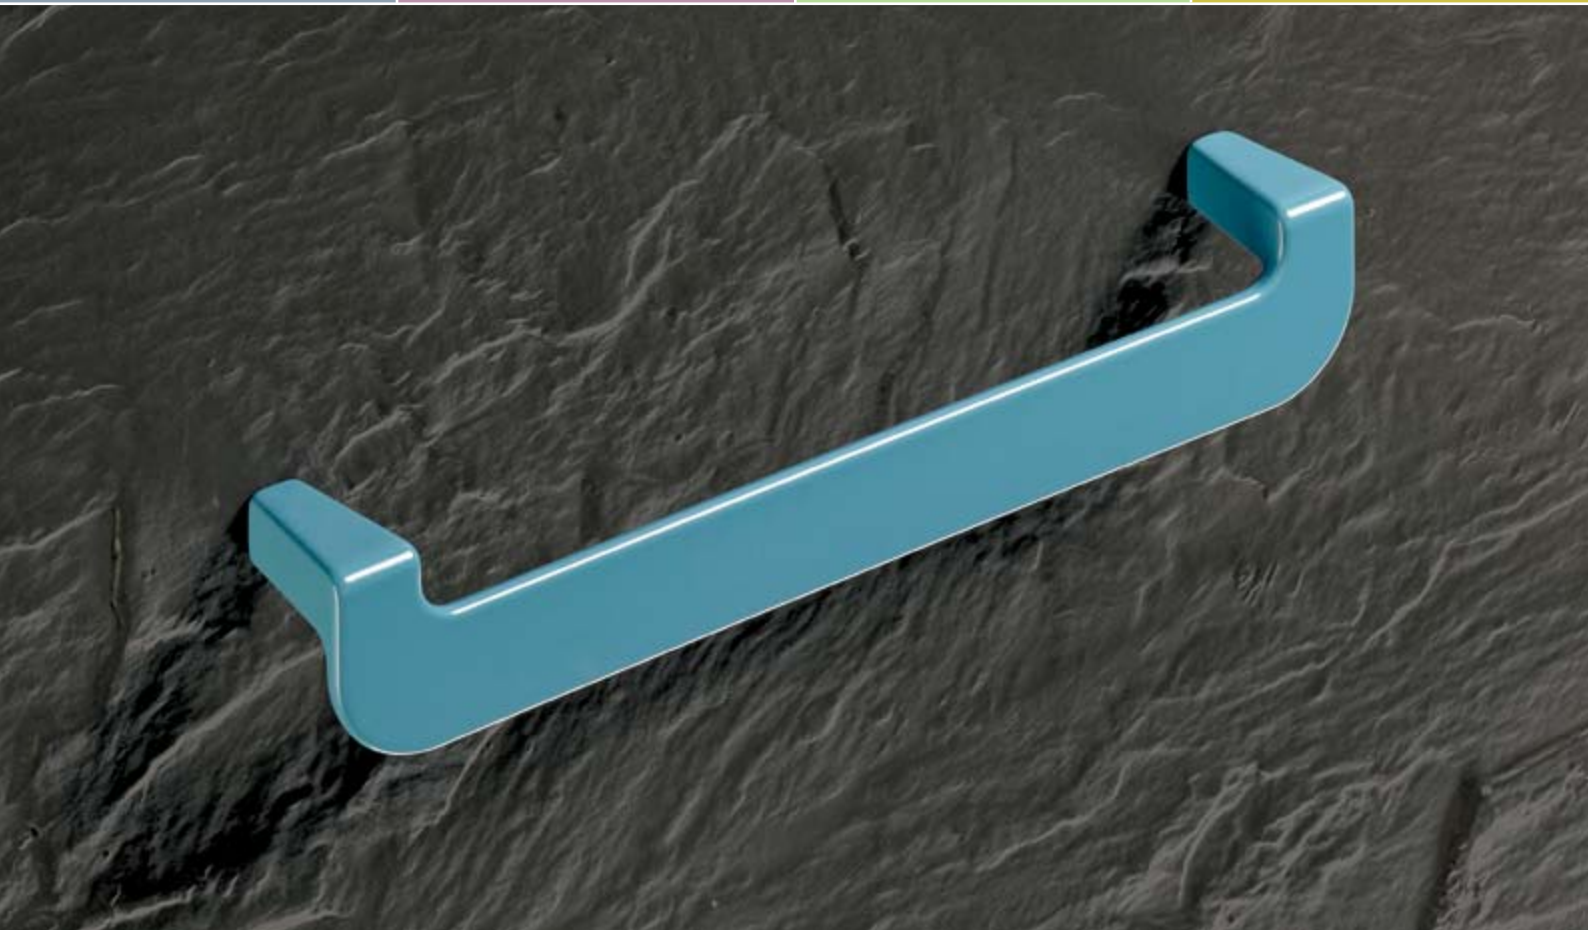

Die Idylle der unberührten Natur ist geprägt von amorphen Strukturen, weichen Formen und Farbvielfalt. ORGANIC bedient sich fantasievoll an diesen Vorgaben. Die Griffe übertragen diesen Trend durch entsprechende organische Formgebung. Geschwungene, naturbelassene oder raue Oberflächen sind weitere Kennzeichen eines puren Wohnambientes im Einklang mit der Natur.

The idyll of untouched nature is defined by amorphous structures, soft shapes and diversity of colour. ORGANIC is imaginative in the way it uses these gifts. These handles feature organic shapes that embody this trend. Curved, untreated or rough surfaces are the further mark of an honest home ambience in harmony with nature.

L'idylle de la nature vierge est empreinte de structures amorphes, de formes douces et d'une variété de couleurs. ORGANIC se sert de ces paramètres avec force imagination. Les poignées transmettent cette tendance par des formes organiques correspondantes. Des surfaces incurvées, laissées à l'état naturel ou rugueuses, sont autant d'autres caractéristiques d'une ambiance de logement pure en harmonie avec la nature.

De idylle van ongerepte natuur is gekenmerkt door amorfe structuren, zachte vormen en veelsoortige kleuren. ORGANIC gebruikt deze dingen op een fantasievolle manier. De grepen zetten deze trend ook om door de overeenkomstige organische vormgeving. Zwierige, zuivere of ruwe oppervlakken zijn verdere kenmerken van een pure woonsfeer in overeenstemming met de natuur.

FOLK

Beständigkeit vermittelt Geborgenheit. Traditionelle Formen und Farben sowie üppige Muster bereichern den Alltag der modernen Sachlichkeit. Das Design der Griff-Kollektion FOLK greift gekonnt den bunten Stil- und Materialmix des Retrostyles auf. Auffallend anders und ausdrucksstark in Form, Oberfläche und Material unterstreichen die Griffe im Wohnraum den individuellen Charakter seiner Bewohner.

Consistency conveys a sense of security. Traditional shapes and colours as well as opulent patterns enrich the everyday world of modern objectivity. The design of the FOLK handle collection skillfully picks up on the colourful combination of styles and materials of the retro look. Strikingly different and expressive in shape, surface and material, these handles give the home a personal touch that underscores the character of those living there.

La constance suscite la sécurité. Les formes et couleurs traditionnelles ainsi que les motifs exubérants enrichissent le quotidien de la sobriété moderne. Le design de la collection de poignées FOLK reprend avec talent l'alliance très colorée des styles et des matériaux du style rétro. Visiblement différentes et expressives de par leur forme, leur surface et leur matériau, les poignées soulignent, dans le logement, le caractère individuel de ses habitants.

Duurzaamheid zorgt voor geborgenheid. Door traditionele vormen, kleuren en weelderige patronen worden de alledaagse voorwerpen uit de moderne zakelijkheid verrijkt. Het design van de greepcollectie FOLK maakt vaardig gebruik van een bonte mengeling van stijlen en materialen uit de retrostijl. Opvallend anders en met een expressieve vorm, oppervlak en materiaal benadrukken de grepen in de woonruimte het individuele karakter van de bewoners.

Touch-in

Neue Perspektiven für puristisches Möbeldesign

New perspectives for purist furniture design

De nouvelles perspectives pour un design de meubles tout en purisme

Nieuwe perspectieven voor puristisch meubeldesign

In nahezu grifflos scheinenden Fronten von Küchen-, Wohn- und Badmöbeln verbirgt sich, so einfach wie raffiniert, die Grifffunktion. Das federgelagerte Dekorelement gibt bei Berührung nach, so dass sich die dahinter liegende Griffschale bequem nutzen lässt.

Appearing almost handleless, fronts on kitchen, living-room and bathroom furniture conceal the handle function with ingenious simplicity. The spring-loaded trim panel moves back when touched to reveal the convenient finger pull recessed behind.

Dans les façades apparemment sans poignées des meubles de cuisines, de salles de séjour et de salles de bain se cache, aussi simple que raffinée, la fonctionnalité de la poignée. L'élément décoratif sur ressorts cède lors du contact, de sorte que la monture de poignée située derrière s'utilise en tout confort.

Achter de blijkbaar greeploze fronten van keuken-, woonkamer- en badkamermeubels gaat de greepfunctie schuil – eenvoudig maar ook geraffineerd. Het verend gelagerde decoratieve element geeft mee wanneer het wordt aangeraakt. Daardoor kan de daarachter gelegen greepschaal makkelijk worden gebruikt.

Touch-in

Individualität bedient Wünsche

Individuality meets personal preference

L'individualité au service des souhaits du client

Individualiteit vervult wensen

Touch-in schafft Gestaltungsfreiheit in Form und Farbe.

Bereits einbaufertig stehen Griffe in rund und eckig in gebürsteter Edelstahloptik oder in Chrom glänzend zur Verfügung.

Durch den modularen Aufbau lassen sich vielfältige, individuelle Varianten realisieren. Ob designgleich oder kontrastierend – das Dekorelement kann vom Tischler, Innenausbauer und Möbelhersteller wahlweise in Frontfarbe lackiert oder mit einem Schichtstoff in gewünschtem Dekor ausgestattet werden.

Touch-in provides freedom of design in shape and colour.

Ready to install, round and rectangular handles are available in brushed stainless-steel effect or polished chrome. Their modular design produces a wide range of individualised options. Whether matching or contrasting – the trim panel can be coated in the colour of the furniture front or covered with laminate in any preferred effect by the cabinet maker, interior designer and furniture manufacturer.

Touch-in donne une liberté créative au niveau de la forme

et de la couleur. Des poignées prêtes à être incorporées, arrondies et anguleuses, en finition inox ou en chromé brillant, sont disponibles. Grâce à la structure modulaire, des variantes multiples et individualisées peuvent être réalisées. Que le design soit le même ou contrasté, l'élément décoratif peut être, au choix, laqué dans la couleur de la façade ou doté d'un stratifié é arborant le décor souhaité. Ce travail est réalisé par l'ébéniste, l'architecte d'intérieur ou le fabricant de meubles.

Touch-in zorgt voor designvrijheid op het gebied van vorm en

kleur. Kant-en-klare ronde en hoekige grepen staan ter beschikking in geborsteld edelstaal of chroom glanzend. In hetzelfde design of contrasterend – het decoratief element kan door de schrijnwerker, de binnenhuisinrichter en de meubelproducent naar keuze in front-kleur worden gelakt of met een gelaagd materiaal in het gewenste decor worden uitgevoerd.

Einsetzbar für alle Griffösungen bei einer maximalen Türdicke von 20 mm und einer Griff-Aufstandsfläche, mindestens 12 mm.
 Can be used for all handle solutions on door thicknesses of up to 20 mm and a handle mounting surface greater than 12 mm in diameter.
 Applicable pour toutes les solutions de portes d'une épaisseur maximale de 20 mm et une surface de maintien de poignée plus grande que 12 mm.
 Geschikt voor alle greepoplossingen bij een maximum deurdikte van 20 mm en een greep-opstandsvlakte van minimum 12 mm.

Accura-Bohrlehren
Accura drilling gauge
Matrices de perçage Accura
Accura-boormal

Accura – die rationelle, wirtschaftliche und fachgerechte
Universal-Bohrlehre im Baukastensystem
Accura – the practical and efficient universal modular drilling
jig for perfect work results
Accura – le gabarit universel, en système de construction par
blocs, rationnel, économique et approprié
Accura – de rationele, economische en vakkundige universele
boormal in modulair systeem

Accura-Bohrkörper für Griffe
Drilling jigs for handles
La plaque Accura pour poignées
Accura-boorlichaam voor grepen

Unterschiedliche Bohrkörper und Anschläge lassen sich
auf der Accura-Schiene mit Mess-Skala in mm und
Inch (Längen von 500 bis 2000 mm) beliebig positionieren.
Different drilling templates and stops can be positioned
anywhere on the Accura rail with metric and imperial
measurement scale (lengths from 500 to 2000 mm).
Différentes plaques de perçage et butées se laissent positionner
au choix sur le gabarit Accura (longueur de 500 à 2000 mm)
avec des graduations en mm et pouces.
Verschillende boorlichamen en aanslagen laten zich op
de Accura rail met meetschaal in mm en Inch
(lengte van 500 tot 2000 mm) willekeurig positioneren.

Markierungen für Bohrungen
im 32er Raster.
Markings for drilling holes for
the 32 mm hole spacing system.
Marquage pour rangée de trous
en système 32.
Markering voor boringen in het
systeem 32.

Accura-Bohrkörper für Griffe

Accura drilling jigs for handles

La plaque Accura pour poignées

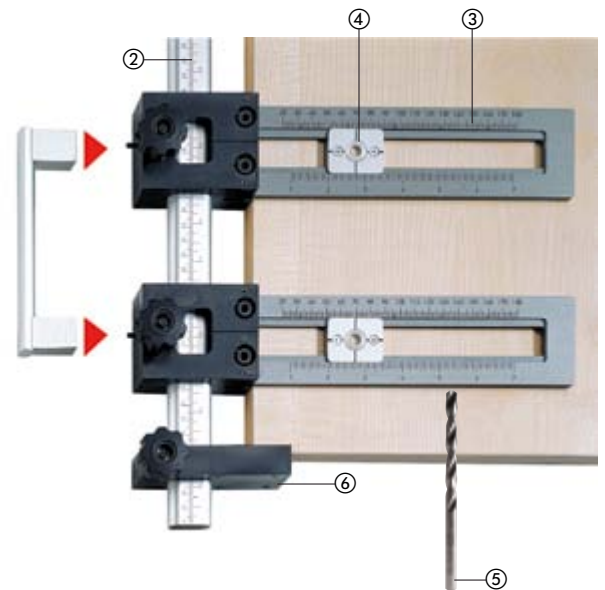

Accura-boorlichaam voor grepen

- ① Accura-Bohrlehre, Set für Griffe besteht aus:
 - 2 Accura-Bohrkörper für Griffe
 - 2 Bohrplatten mit Führungshülse für 5 mm-HSS-Spiralbohrer
 - 1 Accura-Schiene mit Maß-Skala in mm und Inch, Länge 500mm
 - 1 verstellbarer Anschlag für Fronten
- ② Accura-Schiene mit Mess-Skala in mm und Inch, mit Markierungspunkten „Raster 32“
 - 500 mm
 - 1000 mm
 - 1500 mm
 - 2000 mm
- ③ Accura-Bohrkörper für Griffe, inkl. Bohrplatte mit Führungshülse für 5 mm-HSS-Spiralbohrer Aluminium/Kunststoff
- ④ Ersatzschieber mit Bohrbuchse für Accura-Bohrkörper für Griffe
- ⑤ Spiralbohrer 5 mm
- ⑥ Verstellbarer Anschlag für Fronten und einzelne (zerlegte) Korpusseiten, Kunststoff

- ① Accura drilling gauge, kit for handles contains:
 - 2 Accura drill templates for handles
 - 2 drill plates with guide sleeve for 5 mm high-powered high-speed steel twist drill
 - 1 Accura slide rail with measuring scale in mm and inch, Length 500mm
 - 1 adjustable stop for front edge alignment
- ② Accura rail with metric and imperial measuring scale, with "System 32" marking points
 - 500 mm
 - 1000 mm
 - 1500 mm
 - 2000 mm
- ③ Accura drill template for handles, including drilling plate with guide sleeve for 5 mm HSS twist drill bits aluminium/plastic
- ④ Replacement slide rail with drilling bushes for Accura drilling templates for handles
- ⑤ 5 mm twist drill bit
- ⑥ Adjustable stop for fronts and individual (dismantled) cabinet sides, plastic

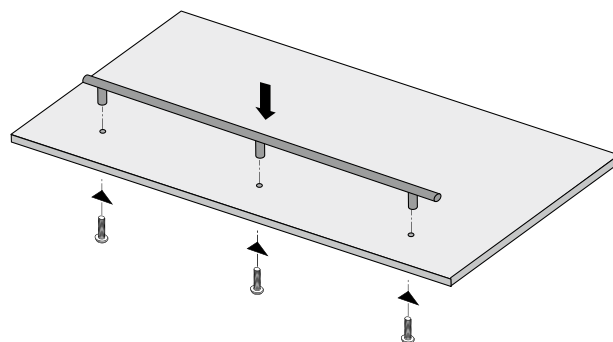

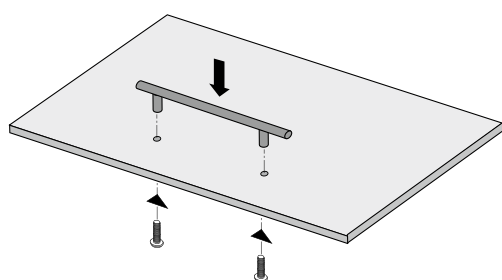

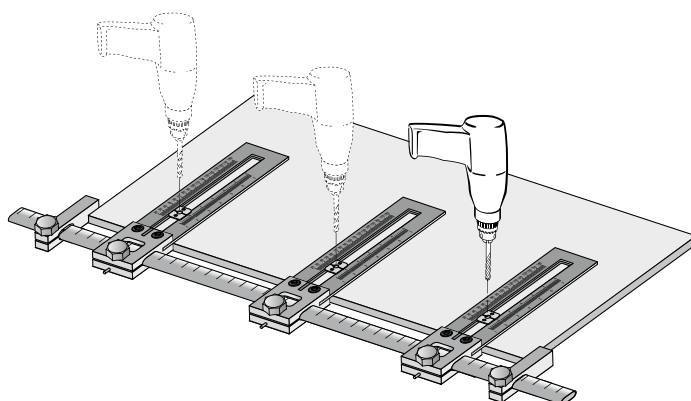

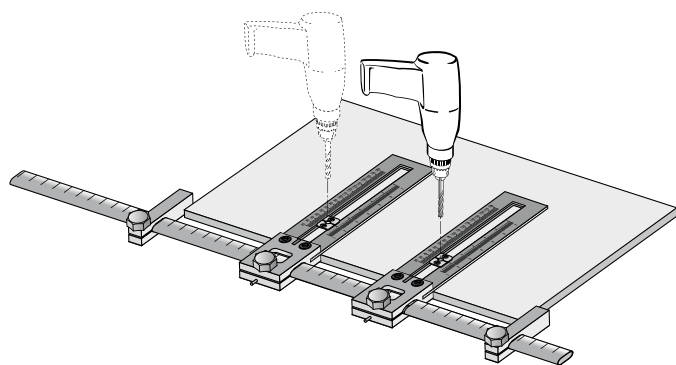

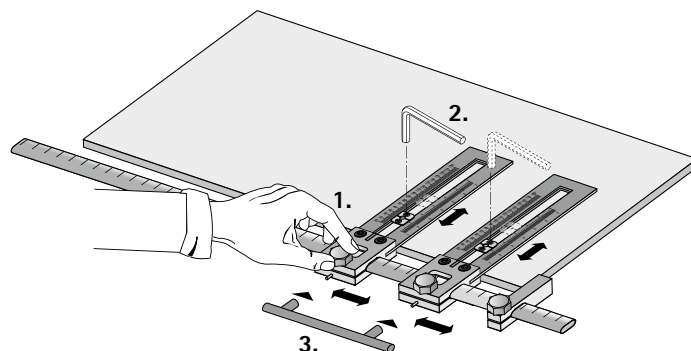

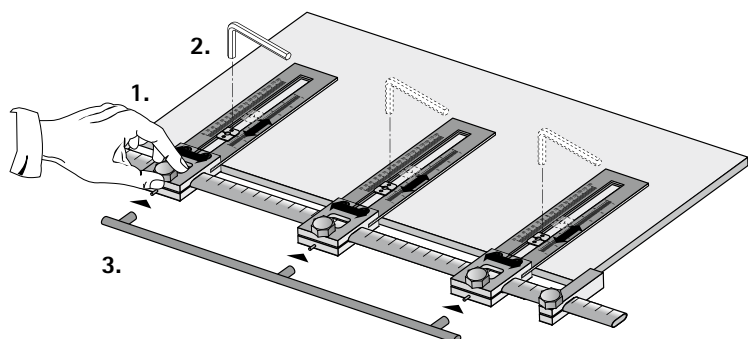

- ① Gabarit de perçage Accura, kit pour poignées comprenant:
 - 2 matrices de perçage Accura pour poignées
 - 2 plaques de perçage avec douille de guidage pour mèche à spirale à coupe rapide haute performance
 - 1 rail Accura avec graduation en mm et en pouces, Longueur 500mm
 - 1 butée réglable pour façades
- ② Rail Accura avec graduation en mm et en pouces, avec points de repérage système 32
 - 500 mm
 - 1000 mm
 - 1500 mm
 - 2000 mm
- ③ Matrices de perçage Accura pour poignées, plaques de perçage avec douilles de guidage incl. pour mèche à spirale 5 mm aluminium/plastique
- ④ Coulisse de rechange avec douille de perçage pour matrices de perçage Accura pour poignées
- ⑤ Mèche à spirale 5 mm
- ⑥ Butée réglable pour façades et côtés de caisson (démontés), plastique

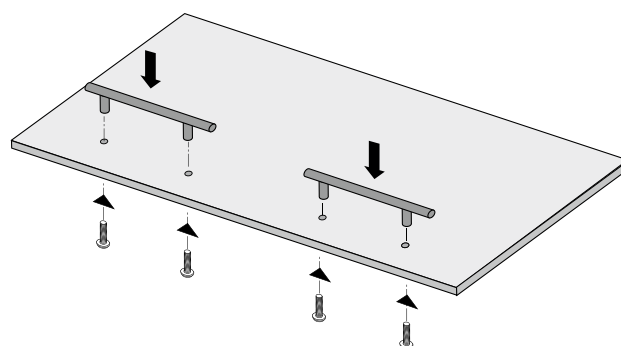

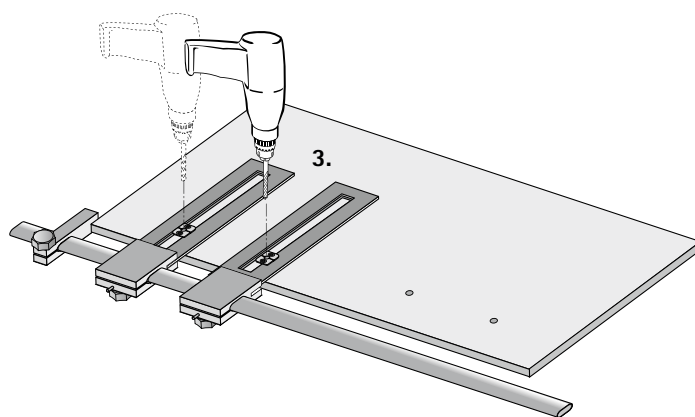

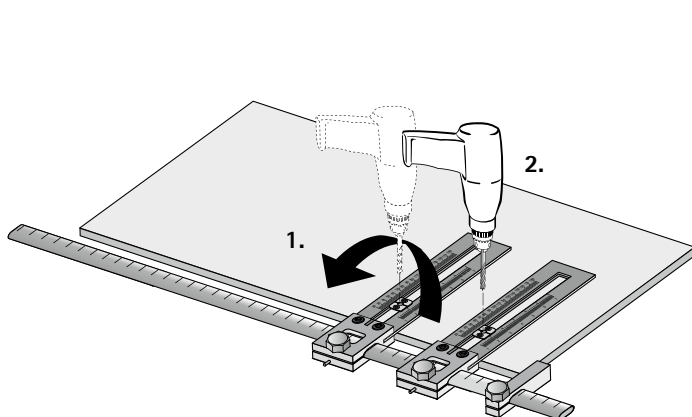

- ① Accura-boormal, set voor grepen bestaat uit:
 - 2 Accura-boorlichamen voor grepen
 - 2 boorplaten met geleidingshulzen voor 5 mm HoogrendementSnelsnijStaal-spiraalboor
 - 1 Accura-profiel met meetschaal in mm en inch, Lengte 500mm
 - 1 instelbare aanslag voor frontplaten
- ② Accura-profiel met meetschaal in mm en inch, met markeringspunten „Systeem 32“
 - 500 mm
 - 1000 mm
 - 1500 mm
 - 2000 mm
- ③ Accura-boorlichaam voor grepen, boorplaat met geleidingshuls voor 5 mm Hoogrendement- SnelsnijStaal - spiraalboor aluminium/kunststof
- ④ Reserveschuifklep met boorbusvoor Accura-boorlichaam voor grepen
- ⑤ Spiraalboor 5 mm
- ⑥ Instelbare aanslag voor frontplaten en aparte (gedemonteerde) kastzijwanden, kunststof

Accura-Bohrkörper für Griffe
Accura drilling jigs for handles
La plaque Accura pour poignées
Accura-boorlichaam voor grepen

- Gewünschte Positionierung auf der Front einstellen
- Bohrabstand einstellen und über
- Abgreifelemente prüfen
- Bei einem Griff mit 2 oder 3 Sockeln:
Eingestellte Bohrlehre auflegen und bohren
- Griff anschrauben

- Set chosen positioning on the front
- Set hole spacing and check using
- Handle fixing points
- For a handle with 2 or 3 strems:
Place drilling jig on front and drill
- Screw on handle

- Régler la position souhaitée sur la façade
- Régler la distance de perçage et vérifier à
- l'aide des éléments ajustables
- Dans le cas d'une poignée centrée avec 2 ou 3 socles sur une façade:
poser le gabarit de perçage réglé et percer
- Visser la poignée

- Gewenste positionering op de frontplaat instellen
- Boorafstand instellen en m.b.v.
- meetelementen controleren
- Bij een greep met 2 of 3 sokkels:
ingestelde boormal opleggen en boren
- Greep aanschroeven

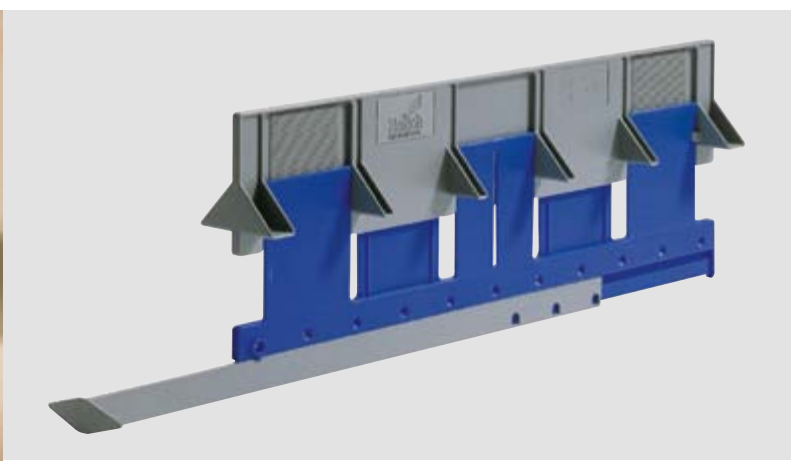

Bei zwei symmetrisch positionierten Griffen:
Bohrlehre zunächst an einer Seite anlegen um für den 1. Griff zu bohren,
danach ohne Umstellung der Bohrlehre an
der anderen Seite anlegen um für den 2. Griff zu bohren.

For two symmetrically positioned handles:
First position drilling jig on one side to drill the holes for the 1st handle and then,
without altering the setting, position drilling jig on the other side to drill the holes
for the 2nd handle.

Dans le cas de 2 poignées placées symétriquement sur une façade:
poser d'abord le gabarit de perçage d'un côté pour percer la 1^{ère} poignée, puis sans
changer de gabarit de perçage, poser sur l'autre côté pour percer la 2^{ème} poignée.

Bij 2 symmetrisch geplaatste grepen:
boormal eerst aan een kant aanleggen om voor de 1ste greep te boren, dan zonder
om te stellen de boormal aan de andere kant aanleggen om voor de 2de greep te
boren.

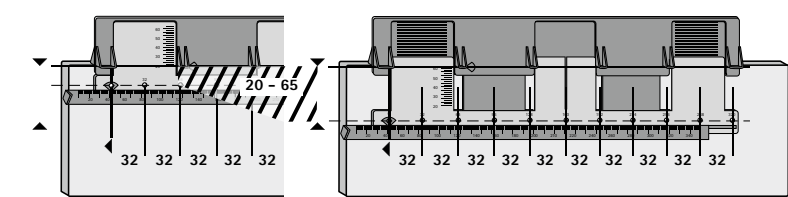

Universal-Ankörnlehre für Griffe und Knöpfe
Universal hole marking template for handles and knobs
Gabarit de centrage pour poignées et boutons
Universele centreermal voor grepen en knoppen

Zweidimensional einstellbare Ankörnlehre zur schnellen und präzisen Markierung der Bohrpositionen im System 32 für • Griffe (Bohrabstand von 32-320 mm) • Knöpfe Einstellbereiche: • Abstand Blendenseitenkante bis zur ersten Befestigungsbohrung des Griffes 10-334 mm • Abstand Blendenober-/Blendenunderkante bis zur Griffposition 20-65 mm Adjustable, two-dimensional hole marking template for fast, accurate marking of System 32 hole patterns for • Handles (Hole spacing of 32-320 mm) • Knobs Range of adjustment: • Distance from drawer front side edge to first fixing hole of handle 10 - 334 mm • Distance from drawer front top/bottom edge to position of handle 20 - 65 mm	Gabarit de centrage réglable sur 2 dimensions pour un marquage rapide et précis des positions de perçage en système 32 pour • Poignées (distance de perçage de 32-320 mm) • Boutons Plage de réglage : • Distance du chant latéral de bandeau au perçage de fixation de la poignée 10-334 mm • Distance chant supérieur/inférieur de bandeau à la position de poignée 20-65 mm Tweedimensioneel afstelbare centreermal voor de snelle en precieze markering van de boorposities in het Systeem 32 voor • Grepen (boorafstand van 32-320 mm) • Knoppen Afstelbereiken: • Afstand zijkant van de frontplaat tot de eerste bevestigingsbooring van de greep 10-334 mm • Afstand boven-/onderkant van de frontplaat tot de greeppositie 20-65 mm
---	--

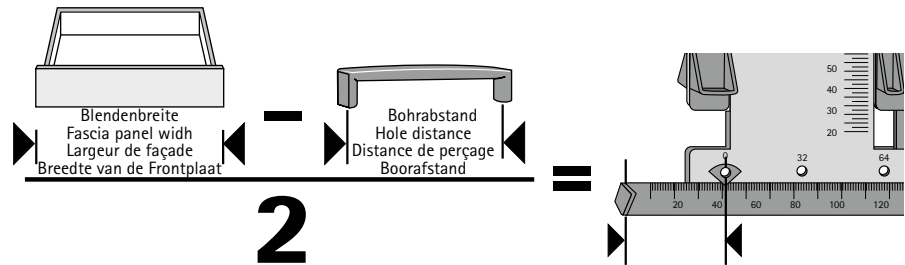

0 048 771	1

Einstellung Höhen-Positionierung
Setting for height positioning
Réglage positionnement en hauteur
Instelling hoogtepositionering

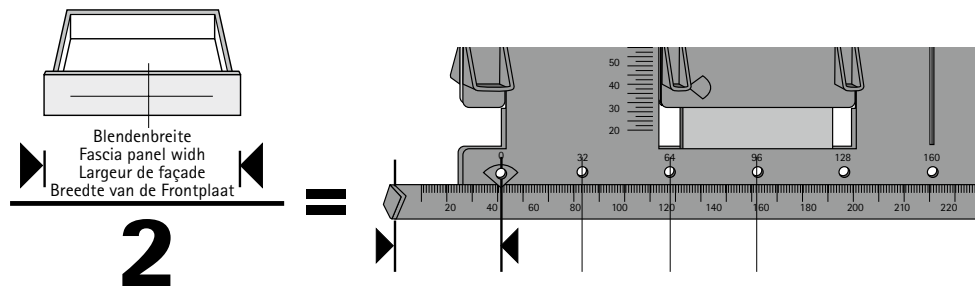

Berechnungsformeln
Calculations formulae
Formules de calcul
Berekeningsformules

Seiten-Positionierung für einen Griff
 Side positioning for a handle
 Positionnement latéral pour une poignée
 Zijdelingse positionering voor een greep

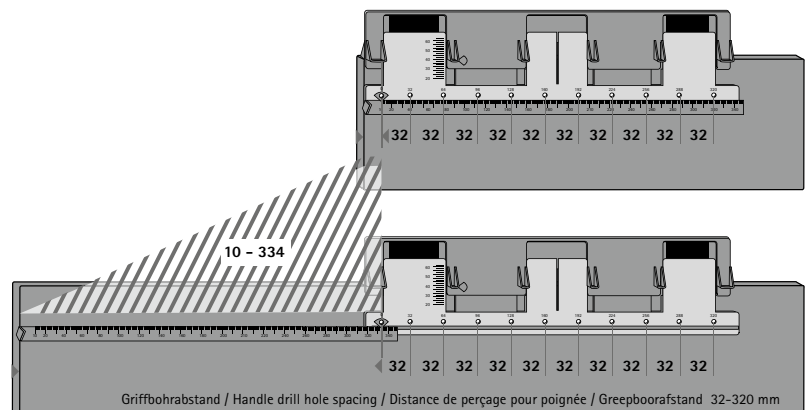

Abstand Blendenseitenkante bis zur ersten Befestigungsbohrung des Griffes
 (min. 10 mm / max. 334 mm)
 Distance from drawer front side edge to first fixing hole of handle
 (min. 10 mm / max. 334 mm)
 Distance du chant latéral de bandeau au perçage de fixation de la poignée
 (min. 10 mm / max. 334 mm)
 Afstand zijkant van de frontplaat tot de eerste bevestigingsboring van de greep
 (min. 10 mm / max. 334 mm)

Seiten-Positionierung für einen Knopf
 Side positioning for a knob
 Positionnement latéral pour un bouton
 Zijdelingse positionering voor een knop

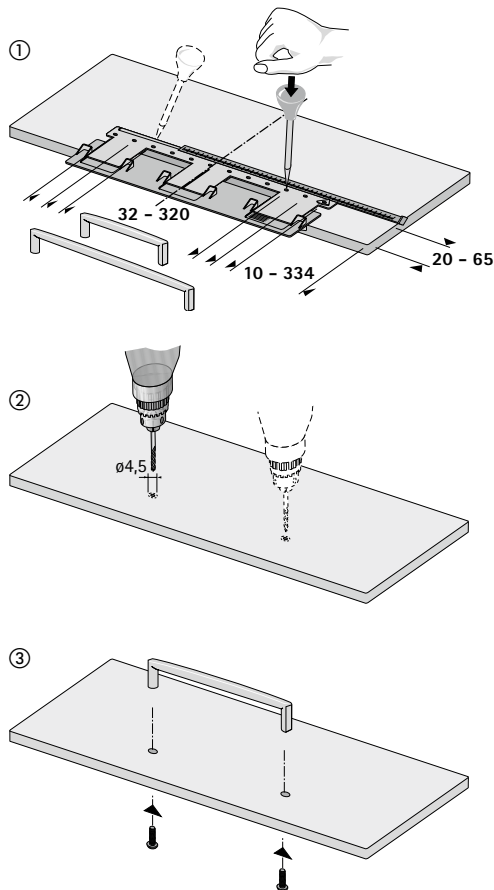

Abstand Blendenseitenkante bis zur Befestigungsbohrung des Knopfes
 (min. 10 mm / max. 334 mm)
 Distance from drawer front side edge to knob fixing hole
 (min. 10 mm / max. 334 mm)
 Distance du chant latéral de bandeau au perçage de fixation du bouton
 (min. 10 mm / max. 334 mm)
 Afstand zijkant van de frontplaat tot de bevestigingsboring van de knop
 (min. 10 mm / max. 334 mm)

Einstellung Seiten-Positionierung
 Setting for side positioning
 Réglage positionnement latéral
 Instelling zijdelingse positionering

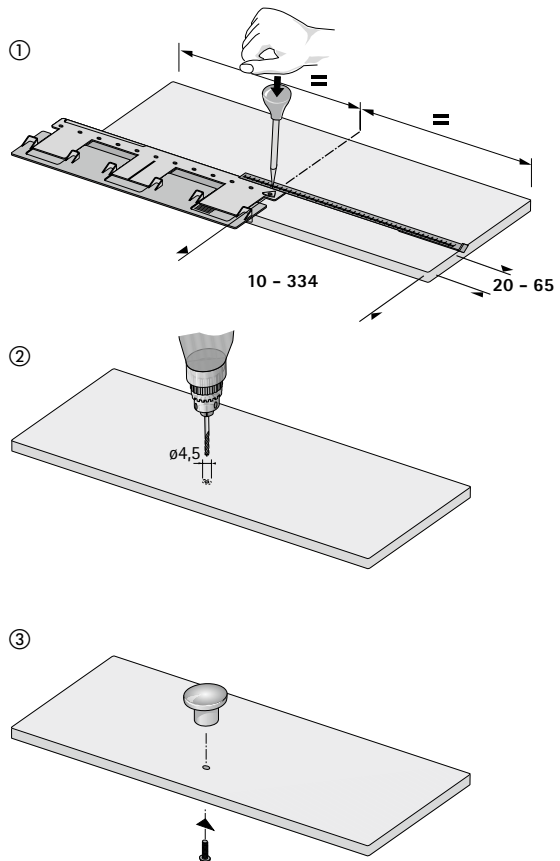

Universal-Ankörnlehre für Griffe und Knöpfe
Universal hole marking template for handles and knobs
Gabarit de centrage pour poignées et boutons
Universele centreermal voor grepen en knoppen

Montage – ein Griff
 Mounting – one handle
 Montage – une poignée
 Montage – één greep

- ① Bohrlehre einstellen und Bohrpositionen ankörnen
 ① Set drilling jig and mark drill hole positions
 ① Régler le gabarit de perçage et centrer les positions de perçage
 ① Boormal afstellen en boorposities centreren
- ② Befestigungslöcher bohren
 ② Drill fixing holes
 ② Percer les trous de fixation
 ② Bevestigingsgaten boren
- ③ Griff anschrauben
 ③ Screw on handle
 ③ Visser la poignée
 ③ Greep aanschroeven

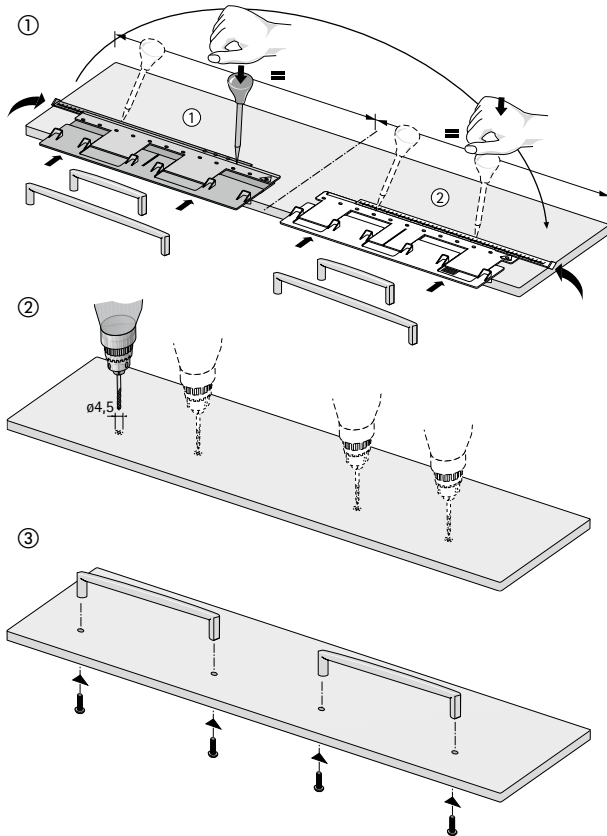

Montage – ein Knopf
 Mounting – one knob
 Montage – un bouton
 Montage – één knop

- ① Bohrlehre einstellen und Bohrpositionen ankörnen
 ① Set drilling jig and mark drill hole positions
 ① Régler le gabarit de perçage et centrer les positions de perçage
 ① Boormal afstellen en boorposities centreren
- ② Befestigungslöcher bohren
 ② Drill fixing holes
 ② Percer les trous de fixation
 ② Bevestigingsgaten boren
- ③ Knopf anschrauben
 ③ Screw on knob
 ③ Visser le bouton
 ③ Knop aanschroeven

Für die exakte Übertragung der Bohrpositionen von rechts nach links kann die Universal-Ankörnlehre einfach umgekehrt angelegt werden.
 The universal hole marking template can simply be used the other way round for accurately transferring hole patterns from right to left.
 Pour le report exact des positions de perçage de la droite vers la gauche, il est possible de poser simplement le gabarit de centrage universel sur l'autre face.
 Voor de precieze overbrenging van de boorposities van rechts naar links kan de universele centreermal gewoonweg omgekeerd worden aangelegd.

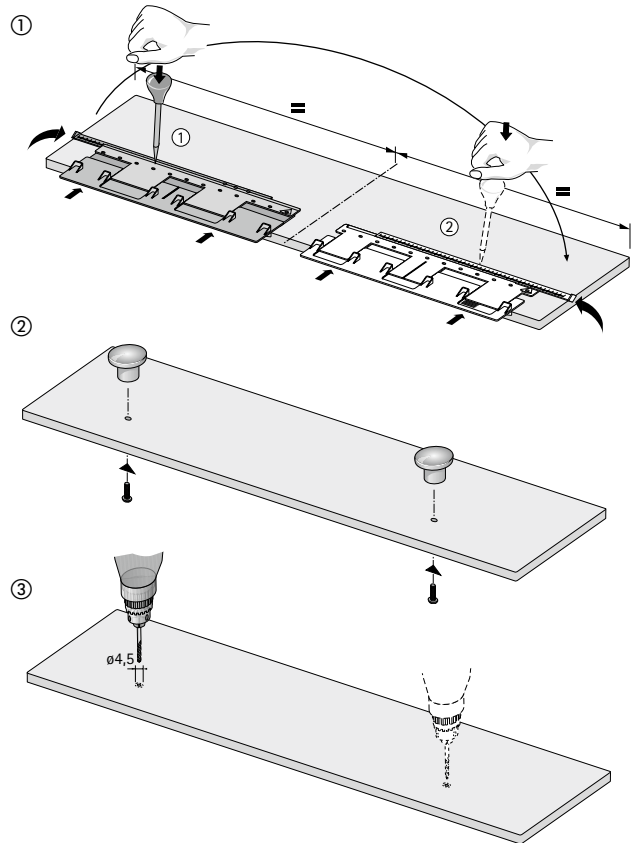

Montage – zwei Griffe (symmetrisch positioniert)
 Mounting – two handles (positioned symmetrically)
 Montage – deux poignées (positionnement symétrique)
 Montage – twee grepen (symmetrisch gepositioneerd)

- ① Bohrlehre einstellen und Bohrpositionen ankönnen
