

 **Wilsonart**
SOLICOR™ & SOLICOR™ COMPACT

Give your design some dimension...

When your project needs a dramatic effect, look to **Wilsonart® SOLICOR™ Laminate** for creating visually crisp and stunning designs with no visible seams at the edges. This durable material with high performance characteristics and color throughout allows you the flexibility to produce even the most complex designs such as inlay effects and sharp edging detail.

Because SOLICOR™ provides continuous color, even on the edges of your finished project, it is the ideal product for desks, countertops, display cases, cabinetry, backsplashes and doors.

Add a little drama...

Sometimes a project just calls for a little more. A little more dimension. A little more drama. A little more, well, wow. That's when you can turn to **Wilsonart® SOLICOR™ Compact Laminate**. This ½" material works both horizontally and vertically, and can be used for countertops, furniture, fixtures, partitions and more. Our SOLICOR Compact Laminate designs offer the same ease of fabrication as our standard Compact Laminate. Perfect for when you need a little more.

Designer White D354

Introducing Sculpted Wood Finish (-88)

Our newest finish is a linear embossed woodgrain with variations of matte and gloss features, creating a sculpted dimensional effect.
